

We work together and create a learning environment which is responsive to the needs of the children, families and the community.

**QIP 2019
Elizabeth East
Kindergarten**

QA1 Educational program and practice-	QA 2 Children's health and safety	QA3 Physical environment	QA4 Staffing arrangements	QA5 Relationships with children	QA6 Collaborative partnerships with families and communities - Strengths	QA7 Leadership and service management
---------------------------------------	-----------------------------------	--------------------------	---------------------------	---------------------------------	--	---------------------------------------

Playful literacy methodology to be implemented in all areas of the curriculum and based on children's prior knowledge , interests and needs.

- * **The educators work with children and support safe learning and provide a challenging environment at all times**
- ⇒ information gathered about each child will fully captures interests, abilities and needs , therefore the implementation and evaluation of the supportive planning should be evident

All educators will follow their JP specification and code of conduct and will further develop their skills to support the need of the centre

- * **The educators at EEK work together and engage in continuous improvement to benefit the whole centre**
- ⇒ staff meetings and regular chats are informative and reflect the understanding of each staff member of what is expected and needed by the centre

Educators guide children through meaningful learning experiences endorsing connection with the natural world by being environmentally responsible and living in harmony with nature

- * **Observations gathered on children's participation and inquisitiveness are to be developed and implemented through Nature Play approaches**
- ⇒ activities to promote awareness of the impact people have on the natural environment : recycling, wildlife, weather -UV ,
